GENERAL INDOOR REQUIREMENTS

- All areas allow for direct supervision of children
- Gates are installed on all stairways of more than 4 steps when children under two are in care
- Toys, materials, equipment, and furnishings are in good repair
- Materials that could pose a choke hazard are inaccessible to children under 3 years of age.
- Buildings are in good repair and are maintained in safe condition.
- Hazardous items are inaccessible to children (to include personal belongings and all items labeled Keep Out of Reach of Children)
- Heating units are safe
- First Aid Kits maintained, readily available and made inaccessible to children
- Electrical outlets have protective covers installed
- All blind cords are properly secured to prevent strangulation
- Each level where child care occurs has 2 means of escape. In basement areas, a permanently installed ladder or non-movable piece of furniture under window sills measuring over 30". In upstairs areas, an escape ladder is available if needed.
- Play equipment, toys, furnishings are sturdy, safe and free of hazards
- Each toddler, preschool and school age child provided a 2" mat, cot, sofa, or bed with clean, washable sheet and blanket.
- All weapons in the home are securely locked and ammunition is stored and locked separately.
- Trash cans are inaccessible and/or covered.
- Area around furnace and hot water heater are free from flammable and combustible materials and area kept inaccessible to children
- Smoke detectors located on each level and carbon monoxide detectors kept on each level where children sleep and as required by manufacturer
- All medications (including prescriptions, over-the-counter, vitamins) are kept locked and inaccessible to children in care
- 5lb 2A-10-BC rated fire extinguisher is kept in an area that is highly visible and easily accessible.
- Unblocked landline or cell phone with reverse 911 capabilities is available at all times
- Designated diaper change area with durable, non-absorbent, cleanable surface. Proper changing procedures are followed and changing areas are disinfected between each child.
- Provider and children's hands are washed at appropriate times and individual or paper towels are available.

INFANTS

- Infants under the age of 12 months are placed on their backs for sleeping in approved sleep equipment
- No blankets, stuffed animals, mobiles, or any other soft bedding or hazards in the sleep equipment
- Infants moved to approved sleeping equipment immediately upon falling asleep in unapproved equipment

- Sound Monitoring equipment must be used when infants are sleeping out of direct supervision
- All infants must be physically observed by the provider at least every ten (10) minutes.

TRANSPORTATION

- Any vehicle used to transport children follows all Colorado Child Passenger Safety laws, with one adult in the vehicle current in First Aid/CPR.
- All children must be properly restrained in a child restraint system.
- Children under thirteen (13) years of age must never be transported in the front seat of a vehicle
- The total number of passengers being transported shall never exceed the manufacturer's specifications

GENERAL OUTDOOR REQUIREMENTS

- Decks/ patios more than 12" high or stairways have protective railings or barrier with slats no more than 4" apart
- All outdoor play equipment kept safe and free from hazards including, but not limited to, lawn mowers, tools, propane, gasoline, building scraps, and scrap metal. Gas grills with propane tanks must have a safety on/off knob on it.
- Any portable or permanent equipment measuring over 2 feet in height must have required resilient surfacing and use zones.
- Trampolines are stored inaccessible to children. Hot tubs must have bolted and securely locked covers. Swimming pools are kept securely locked behind a 5' fence.
- Outdoor area kept free from animal contamination.
- All window wells are covered.
- Play equipment is sturdy, safe, age appropriate, varied and free of hazards
- Play area is maintained in a safe condition and free of hazards
- Decorative ponds in the designated play area must use childproofing grates to prevent risk of drowning when there is no fence.
- Children must be directly and actively supervised near standing water
